Subject: Prescription Motorcycle Goggles

Dear Leonard,
I received my prescription motorcycle goggles yesterday, and I wanted to let you know how pleased I am with them. For some time I have been looking for prescription goggles that fit properly when worn over a 3/4 helmet, and also provide the necessary peripheral vision which is essential to safety in biking. Yours is the only goggle I could find that fits these criteria. The quality and materials are also quite good.
Many thanks for this service.
Best Wishes,

Jim Knight

Dear Mr. Maggiore,

The prescription goggles that I ordered from you have arrived in the mail. They fit well and look good. I am now riding my Harley Davidson with it.

Thank you again for your expert assistance and courteous service.

Sincerely,

Greg:

Today I received the real leather "small faced" prescription goggles you made for me. They fit perfect. All others I have tried have been too big for my face and let cold air in, resulting in watery eyes and a decreased riding season. Yours are superb. I am only 5 feet tall with a small build and THEY FIT!!!! They could not fit any better, even if you had taken a mold of my face. Thanks again.

Mr. Leonard Maggiore

Just a short letter of thanks and appreciation for the Motorcycle Goggles that you made for me. Well worth the money, has really helped with my vision riding my Harley. I tried contacts but they were so much trouble to put in and take out plus a little dirt under the lenses was ~~perheli~~. I tried wearing glasses under goggles but there is a distortion that you have to adjust to. With your prescription Goggles its just great, I know that I'll do a great deal more riding. If you would like to send me another package (brochures) and some business cards I would be more than happy to drop them off at the Local Harley Davidson dealer. Again thank, and I did receive them in time to use them for part of my vacation.
